Founded in 1966, the School of Travel Industry Management (TIM) pioneered the concept of integrating all aspects of travel—hospitality, tourism, and transportation—in a single academic unit. Today the School is comprised of energetic and committed scholars who are at the cutting edge of research in the fields of hospitality, tourism, and transportation management and regularly publish in leading scholarly journals. In addition, the School’s setting within one of the world’s premier tourist destinations makes it an ideal location for the study of coastal and marine tourism; ecotourism; tourism in the Asia-Pacific region; sustainable tourism; destination marketing; and many other subjects. Facilities include the Sunset Reference Center with one of the largest specialized collections of tourism resource materials in the region; the Gee Technology Center with an IT classroom, videoconferencing and distance learning capabilities; the Leong Hop & Bernice C. Loui Computer Lab; and the Center for Tourism Policy Studies, which conducts applied research and provides executive training programs and technical assistance to the industry.
