

NorthWest Arkansas Community College

Brightwater: A Center for the Study of Food www.brightwater.org

We have a brand new facility, new programming, and new personnel at NorthWest Arkansas Community College in Bentonville.

Incredible growth of the region, focusing on food systems, training students for the food world, invigorating autonomy and environment. Culinary nutrition, food entrepreneurship, reduction of food waste, whole-animal butchery. That's just what we do in between class time.

Vibrant community.

Boundless opportunities.

Nurturing environment.

Please note that we have a new position this week, Director of Culinary Operations, that brings it all together. This person is responsible for the day to day running of kitchens and academic program.
